	Specialisation	Inter-Disciplinary Transport Infrastructure Advice Client Team Support, Scoping and Project Development Strategies Strategic Management, Stakeholder Consultation and Development Team Leadership
--	-----------------------	---

2018-2024	Tony Meadows Limited	The experience provided by Tony Meadows stems from a continuous, 38-year involvement in the design of our public transport infrastructure. Involved in most of the major enhancement programmes in London during that period, Tony Meadows now provides strategic and technical development advice to support the delivery of value enhanced transport systems and their urban development implications.
	Nexus Rail	Design proposal advice and Multi-Disciplinary technical reviews for the Newcastle upon Tyne rail systems operator.
	Citizen M	Scope, ownership, design, liability and stakeholder consultation advice to hotel constructor and operator in their discussions with London Underground.
	TC-A	Non-Executive Director to Trisha Chauhan Architecture, providing strategic support to the procedural and contractual structure of the company and its projects.
	Shibley Righton LLP	Expert technical witness in connection with post-contract mediation for the Finch West and Steeles West stations on the new Spadina metro line in Toronto, Canada.
	Madison Square Gardens	Strategic and technical development advice plus stakeholder consolidation and negotiation in support of leisure development impacts on Stratford multimodal interchange.
	Battersea Power Station Development Corporation	Technical advice and Northern Line Extension station scoping support to the Battersea Power Station Development Company in connection with contractor/transit authority negotiations.
	HB Reavis Ltd	Support to private developer in connection with Network Rail station change procedure for the development enabling works to the adjacent Waterloo station.
	Canary Wharf Group	Strategic and technical development advice to the Canary Wharf Group in connection with a new cross-London independent and privately funded underground railway.
	Step Free Access Advice	Planning development advice for congestion relief and step free access to surface stations at Stratford , East Putney and Wimbledon Chase .
	Cambridge Council	Station technical and urban realm advice in connection with a proposed sub-surface Metro system in the historic setting of Cambridge UK.
1986-2018	Tony Meadows Associates	Before taking up his independent consultancy role in 2018, Tony led a well-considered architectural practice, uniquely specialising in the design and delivery of transport infrastructure projects.
